

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. BIENNIAL REPORT
OF
THE SECRETARY OF STATE,
OF
THE STATE OF TEXAS *Dept. of
state*
1884.

J. W. BAINES, SECRETARY OF STATE.

AUSTIN:
STATE PRINTING OFFICE, D. & D. ASYLUM.
1884.

REPORT OF SECRETARY OF STATE.

DEPARTMENT OF STATE, }
 December 24, A. D. 1884. }

To His Excellency John Ireland, Governor of Texas:

SIR—I have the honor to present this the biennial report of this department.

By the favor of your Excellency and with the advice and consent of the honorable Senate of the Eighteenth Legislature, I took charge of this department on the 18th day of January, 1883. At that time, its offices were necessarily in some disorder and confusion, consequent upon their recent removal from the Travis county court house, the limited space allotted the department in the temporary capitol, and the presence of the Eighteenth Legislature. However, with your clemency, the generosity of the Legislature, the courteous assistance of my worthy predecessor, the Hon. T. H. Bowman, and an industrious and efficient corps of assistants, the offices, books, archives and papers have been systematized and arranged as well as the small rooms occupied by the department will permit; and the labors and duties of the office have been performed with, I think, some credit and profit to the public service.

CONSTITUTIONAL DUTIES.

The laws passed by the regular and special sessions of the Eighteenth Legislature were accurately copied, comprehensively indexed, and published with unprecedented dispatch.

The register of your official acts has been faithfully kept, in well bound books, properly indexed.

PARDONS, ETC.

These records show that you have granted 153 pardons, 9 respites, 4 commutations and 95 remissions, and have filed in this office your reasons for your actions. A large per centum of the pardons have been granted upon the petitions of the officials and citizens of the counties where convictions were made, and because of good behavior, in order to remove the disabilities of convicts whose terms of imprisonment had either expired or were about to expire. Pardons have, generally, been granted subject to revocation by the Governor, upon the convicts' violation of any of the criminal laws of the State.

EXTRADITION.

You have issued one hundred and forty-one warrants for the arrest of

fugitives from justice, on the requisitions of the chief executives of other States, territories and countries, as follows, to-wit:

Alabama.....	10	Louisiana.....	21
Arkansas.....	26	Mexico.....	1
Arizona.....	3	Mississippi.....	9
California.....	2	Missouri.....	14
Colorado.....	2	Montana.....	1
Florida.....	1	Nebraska.....	1
Georgia.....	13	New Mexico.....	4
Illinois.....	6	North Carolina.....	1
Indian Territory.....	5	Oregon.....	1
Kansas.....	18	South Carolina.....	1
Kentucky.....	3	Tennessee.....	3

REQUISITIONS.

You have made three hundred and twenty-one requisitions for the return of fugitives from this State, on other States, territories and countries, as follows, to-wit:

Alabama.....	11	Mississippi.....	15
Arkansas.....	73	Missouri.....	17
California.....	5	Nebraska.....	4
Colorado.....	2	New Mexico.....	29
Dakota.....	1	New York.....	7
Florida.....	5	North Carolina.....	1
Indian Territory.....	34	Ohio.....	2
Illinois.....	8	South Carolina.....	2
Kansas.....	19	Tennessee.....	8
Kentucky.....	2	Virginia.....	2
Louisiana.....	60	Wyoming.....	5
Michigan.....	1	Washington.....	1
Massachusetts.....	1	Wisconsin.....	1
Mexico.....	5		

REWARDS.

You have offered but few public rewards. In cases of extradition, rewards sufficient to cover the expense of the return of fugitives, charged with the higher grades of felonies, have been offered.

OTHER DUTIES.

That the State register should be correctly kept is of the highest importance, for it should contain a list of all officers elected or appointed under the laws of the State, with the dates of their qualifications and commissions, and will be referred to by present and future generations. To the end that it might be perfected, the Eighteenth Legislature passed a law requiring all officers to take out their commissions. As no officer can get his commission until his election, or appointment, and qualification has been duly certified to this office, the act referred to helps to furnish the desired data to complete the register. This law also reduced the fee for each commission from two dollars to one. While but few can object to the present fee as onerous, many were, doubtless, deterred from taking out their commissions by the law which required double the present one.

For the benefit of the public service, I herewith print a list of all State, district and county officers, as shown by the State register.

BOOKS, ARCHIVES, ETC.

These have been arranged as well as the rooms of the department will allow. I have been compelled to use two rooms apart from those where the business of the office is transacted. One of these rooms was rented by my predecessor, and I had to continue its occupancy, because I could not secure another room in the capitol. For the rent of this room I respectfully ask an appropriation.

DISTRIBUTION OF LAWS.

I have distributed the laws of this State and of the United States as the law required. The labor and expense attending the same has been great. The expense of mailing and expressing the laws, journals and Texas reports, has used up the greater portion of the postage and freight appropriation allowed this department.

FEES.

The total receipts of the department from fees alone, since January 18, 1883, up to December 1, 1884, as shown by exhibit herewith printed, are \$39,562.73. This sum has been sufficient to defray all the expenses of the department, including salaries, and pay into the treasury, on an average, more than one thousand dollars monthly. Thus it will be seen that the department has not only been self-sustaining, but has become a source of revenue to the State.

The increase in fees has been caused by the fee bill, suggested by me, and passed by the Eighteenth Legislature. This law, while it reduced the fees from the officers of the State, required corporations to pay fees according to their capital stock. The justice and salutary effect of the law has been appreciated. While the fees on all corporations was uniform, many would take out charters with fictitious capital stocks. This is rarely done under the new law. Some idea of the immense amount of clerical labor connected with this branch of the department can be formed from an examination of the abstract of charters, to be found in another part of this report, when it is remembered that each charter has to be filed, a certified copy furnished the incorporators, and the original recorded at length in the records of the office.

LEGISLATIVE JOURNALS

have been distributed as the law directs, and the remaining copies have been stored away. It is suggested that one thousand copies of the journals of each house are more than is necessary to be printed. It is also deemed proper to respectfully suggest, as this department is frequently called on to hunt up bills of the legislature, that the records of the proceedings would be more complete and satisfactory, if all bills, and a calendar of the same, were printed in the journals, and a more comprehensive index published.

REVISED STATUTES.

The edition of the revised statutes which was published by my predecessor has been exhausted, by sale and distribution, and I ask that the Printing

Board be authorized to have another edition printed from the plates now deposited in this office.

ELECTION LAWS AND BLANKS

have been furnished the counties of the State. Election returns have been received and counted, and tabulated statements of the same can be found elsewhere in this report. Some counties have been tardy in sending in their returns, but by frequent notices to the county officials and the assistance of the daily press, I have been enabled to receive much more complete returns than some of my predecessors. The tardiness, in many instances, has been explained by the fact that many new county judges have been elected, who, upon assuming the duties of the office, presumed that all returns had been made by their predecessors.

TEXAS REPORTS.

The sale of these reports, as well as the Revised Statutes and the general and special laws, has necessitated a great deal of correspondence and the opening of additional accounts on the books of the department. The amounts received from the sale of the reports, respectively, is shown elsewhere. The price of the reports is fixed by law at four dollars per volume. The exhibit shows that I have sold only about 1,600 volumes of the four thousand reserved for sale. For the eight thousand volumes of the Supreme and Appellate courts' reports received, the State has paidout the sum of \$34,302.50.

I have furnished the reports to federal, state and county officials, and other states, as the law specifies, except that I have only sent one copy to each county judge, because five hundred copies of each volume, the number required by law to be retained for distribution, would not be sufficient to send more, and make the distribution and reserve contemplated by law.

GENERAL AND SPECIAL LAWS.

The sale of these books, while it has not amounted to a great deal, has yielded a profit on the books sold, and has been much appreciated by the people generally. The prices asked for the books are so small that every one can buy the laws of his State.

CLERICAL ASSISTANTS.

My clerks have been selected for accuracy, ability and dispatch. Although the labors of the office has sometimes been onerous, the work has been performed with alacrity. Not anticipating any great increase or decrease in the work of the office in my estimate furnished the Comptroller, I did not ask for any change in the number of clerks. Each clerk has special duties and labors, but no one hesitates to do any work that is to be done, consequently no desk gets behind. Whenever work is on hand, it is done, regardless of office hours, and none has ever asked for extra compensation. My clerks have been faithful and efficient, and I trust their services will be appreciated.

Very respectfully,

Your obedient servant,

J. W. BAINES,
Secretary of State.
